

INDEX TO VOLUME XXX, 1971

* indicates an abstract or a contribution to a discussion

- Acid, hyaluronic, and serum proteins dispersed in collagen gels, interaction between, 419
- Acid, uric, clearance in gout, 285
- Acromegaly in arthropathy, 243
- ACTH, comparison of, with corticosteroids, and pituitary-adrenal function, 91
- , porcine, 589
- Adrenal function and single daily dose corticosteroid treatment, 149
- Adult, Still's disease in, 121
- Aetiology, infectious, of arthritis, rheumatoid, 274
- Age, effect of, on thickness of articular cartilage at shoulder joint, 43
- at onset and radiology of ankylosing spondylitis, 138
- Albumin metabolism in arthritis, rheumatoid, 265
- ALEXANDER, W. R. M., *199
- ALLALOUF, D.: see Yaron, M., etc., 613
- ALMEYDA, J. R.: see Marsh, F. P., etc., 501
- Amylase resistance of ageing costal cartilage, 290
- ANDERSON, A. J.: Enzyme system in rat leucocyte granules which degrades insoluble collagen, 299
- ANSELL, B. M., *329, *331 *ter*
- : see Riley, M. J., etc., 138
- Antibody development during long-term corticotrophin therapy, 589, 593
- Anti-DNA antibodies in lupus erythematosus, 259
- Antigammaglobulins, serum, in juvenile rheumatoid arthritis, 82
- Antigen recognition by T-cells, 565
- Antinuclear factors, complement-fixing ability of, 640
- ARANA, R. M.: see Cossio, P. M., etc., 640
- Arteritis, temporal, necropsy study of, 224
- Arthritis, adjuvant, mast cell in, 24
- , —, suppressed by gold sodium thiomalate in rat, 303
- , chronic, produced by ovalbumin in rabbit, 307
- , experimental, electron microscopy of joint surfaces in, *542
- , —, prednisolone in, 509
- , immune, effects of cyclophosphamide on, 78
- produced by *M. arthritis* in rats, 316
- AND RHEUMATISM COUNCIL FIELD UNIT: Report on services available for rheumatism sufferers, 428
- , rheumatoid, albumin metabolism in, 265
- , —, infectious aetiology of, 274
- , —, cell-mediated immunity to micro-organisms in, *540
- , —, complement-fixing ability of antinuclear factors in, 640
- , —, development of antibodies during long-term corticotrophin therapy, 589, 593
- , —, enthesopathy of, 213
- , —, enzymes and, 529
- , —, immunology of *M. fermentans* in, 271
- , —, indices of disease activity in, 574
- , —, juvenile: see Still's disease
- , —, lymphatic clearance rates in, 638
- , —, mycoplasma in, 413, 506
- , —, radioisotope study of small joint inflammation in, oral corticosteroids and, 401
- , —, scleritis and, 343
- , —, serology of, 274
- , —, synovial giant cells in, 294
- , tuberculous, synovial giant cells in, 294
- Arthropathy, acromegalic, 243
- ASHWORTH, M., *201
- ATKINS, C. J., *333 *quater*
- Autopsy studies of ribs, 466
- of spine in haemochromatosis, 453
- BACH, J.-F.: Antigen recognition by T-cells and its suppression, 565
- BACKHOUSE, K. M., KAY, A. G. L., COOMES, E. N., and KATES, A.: Tendon involvement in the rheumatoid hand, 236
- BACON, P. A., *330, *332
- : see Myles, A. B., etc., 149
- BALLANTYNE, F. C., FLECK, A., and DICK, W. CARSON: Albumin metabolism in rheumatoid arthritis, 265
- BALL, J.: Heberden oration, 1970: Enthesopathy of rheumatoid arthritis and ankylosing spondylitis, 213
- , *539, *542
- : see Park, W. M., etc., 466
- BANE, A.: see Park, W. M., etc., 466
- BARDFELD, R., SOBĚSLAVSKÁ, V., and SOBĚSLAVSKÝ, C.: Serum antigammaglobulins in juvenile rheumatoid arthritis, 82
- BARKS, J. S.: see Jayson, M. I. V., etc., 638
- BARNES, C. G., TURNBULL, A. L., and VERNON-ROBERTS, B.: Felty's syndrome, 359
- BAXTER, E., FRASER, J. R. E., and HARRIS, G. S.: Interaction between hyaluronic acid and serum dispersed in collagen gels, 419
- BECKER, J. F.: see Cockel, R., etc., 166
- BEDFORD, J.: see Stevenson, A. C., etc., 487

Note: This year and in future years the Abstracts Section will not be indexed.

You've 'cured' his gout again and again ...

... ZYLORIC will stop it for good

ZYLORIC* stops gout at source by limiting uric acid formation in the body. When given long-term, ZYLORIC prevents acute attacks of gouty arthritis and also protects the kidneys from serious damage due to urate deposition.

ZYLORIC is a drug of low toxicity with few side-effects.

*Trade Mark

Each tablet contains 100 mg allopurinol. Full information is available on request.

Long-term **ZYLORIC** stops gout

Burroughs Wellcome & Co.

(The Wellcome Foundation Ltd.) Dartford, Kent DA1 5AH.

**AT
LAST!**

A practical, well tolerated cervical collar, able to submit the cervical column to symmetrical traction or traction in variable directions or in flexo-extension. Excellent results are obtained in rheumatic, traumatic and inflammatory disorders of the cervical spine.

MINERVA PNEUMATIC JACKET

(RADIOTRSPARENT CERVICAL COLLAR)
PATENTED

High response rate

In a long-term study* of nearly 1000 arthritic patients, 7 out of 10 were reported as 'better' or 'much better' after treatment with Brufen.

**Equally good response in
Osteo- and Rheumatoid Arthritis**

In terms of relief of pain and improved functional activity, osteo-arthritic patients and rheumatoid arthritic patients responded equally well to Brufen.

**Highly effective in
Arthritis of recent onset**

77% of those in the study who had suffered from arthritis for one year or less showed a significant improvement during treatment with Brufen.

**Good Response in
extremely chronic Arthritis**

Even among the patients who had suffered from an arthritic condition for 20 years or more, over 50% responded well to Brufen therapy.

BRUFEN 
ibuprofen

New freedom for the arthritic patient

(*Practitioner, 1971, 207, 343)

Brufen is ibuprofen, available as tablets of 200mg.

Diseases of the Joints

Arthritis and rheumatism are common complaints, even if patients are often vague about the exact meaning of the terms they use. In the last few years the diagnosis of joint disorders has become more exact, while the introduction of local and systemic steroid therapy and the powerful non-steroidal anti-inflammatory drugs has revolutionized treatment. In an attempt to bring doctors up to date in this field, the *B.M.J.* published in 1969 a series of short articles giving practical advice on the common disorders of the joints. The articles have now been revised by their authors and collected together to form this handbook on the management of arthritis.
